

## PRESS RELEASE

NEW PRODUCTS: the HOLMENKOL range of side edge tools

### Sharp edges in snow and ice

**Ditzingen, 29th January 2007. Don't let poorly tuned edges on skis and snowboards spoil your fun in the snow. We have the perfect solution. The new side edge tools ErgoEasy, ErgoSemi and ErgoProfiRacing from HOLMENKOL make edge tuning simple, quick, safe and precise.**

The universal side edge tool **ErgoEasy** has two angle settings (88° and 89°). It is supplied with a file which is simply removed, rotated and then reinserted into the tool. The **ErgoSemi** is equipped with guides which ensure safe and smooth operation along the ski base.

ErgoSemi and ErgoProfiRacing have an adjustable grinding angle of 90°-85°. This can be simply adjusted using a coin. **ErgoProfiRacing** is the professional tool for professional edge tuning. NEW: the professional tool is equipped with roller bearings which prevent the accumulation of grinding shavings.

**All three side edge tools feature an ergonomic design which makes them light and easy to hold and ensures safe tuning. A profile file is also supplied. Replacement files are available from HOLMENKOL.**

**The new side edge tools will be on show at the winter ispo 2007 in Hall B3, 408.**
