

PRESS RELEASE

HOLMENKOL LubeClassic + care: high-grade lubricant suitable for all kind of metal based mechanic applications in various surroundings

Performance optimized classic lubricant

Ditzingen, August 2006. The Ditzinger sports coating manufacturer HOLMENKOL is launching its high-grade lubricating oil LubeClassic + care. Representing excellent value for money, it is ideally suited for all applications requiring highly effective oil based lubrications.

LubeClassic + care ensures all moving metal parts such as fittings, chains, gear wheels, gear cables a.o. to run smoothly and quietly. It protects the metal from external factors and corrosion. Special additives ensure long-lasting adhesion to the underlying surface.

For maximum adhesion of the lubricants to the metal, the manufacturer recommends cleaning with HOLMENKOL SportClean + remove prior to using LubeClassic.

The 250 ml aerosol can is available at the recommended non-binding price of €9.95.

HOLMENKOL Sport-Technologies was awarded in 2004 to be one of the top 100 of Germany's most innovative companies in medium-sized businesses. Since 2002 the company focussed on the development, production and marketing of highly specialised and environmental friendly sport coatings for all kind of sport disciplines.

The company, known to be world's oldest producer of skiing waxes and technologies, can hereby access an enormous pool of technical know-how and experiences in lubricating, sealing, waxing and optimizing of surfaces. The HOLMENKOL aquatics products have found in only one years time a wide spread racing community of professional top sailors, relying on these products. HOLMENKOL products have regularly been rewarded for their outstanding performances. E.g. the NANOWAX product group was chosen in 2003 by US Forbes Magazine, to be No. 1 nanotechnology product worldwide.
