

PRESS RELEASE

HOLMENKOL LubeClassic + care: high-grade chain lubricant suitable for all metal parts

Top quality bike care

Ditzingen, July 2006. In August 2006 the Ditzinger sports coating manufacturer HOLMENKOL is launching its high-grade chain oil LubeClassic + care onto the market. Representing excellent value for money, it is ideally suited for cyclists ranging from hobby riders to those with serious ambitions.

LubeClassic + care ensures all moving metal parts such as chains, gear wheels, derailleurs, brake/gear cables and fittings run smoothly and quietly. It protects the metal from external factors and corrosion. Special additives ensure long-lasting adhesion to the underlying surface.

For maximum adhesion of the lubricants to the metal, the manufacturer recommends cleaning with HOLMENKOL SportClean + remove prior to using LubeClassic.

The 250 ml aerosol can is available from bike shops at the recommended non-binding price of €9.95.

HOLMENKOL Sport-Technologies is the oldest ski wax manufacturer of the world and exclusively specialized on the development and the commercialization of highly innovative and environmentally friendly sports coatings based on the newest technologies since 2002. HOLMENKOL was awarded to be one of the 100 most innovative medium-sized companies in Germany 2004. 2003 the NANOWAX product line is awarded to be the no. 1 nanotechnology product worldwide by the FORBES magazine. More information about HOLMENKOL and the products you can find on our website www.holmenkol.com.
