

PRESS RELEASE

HOLMENKOL with optimized edge tools

Pretty sharp all round!

Ditzingen, 20 January 2006. More safety and greater precision when tuning ski and snowboard edges. This is what's offered by the improved edge tools ErgoSemi, ErgoProfi, ProEdge Allround and ProEdge Champion from HOLMENKOL.

The ErgoSemi has a standard angle of 89°. With the ErgoProfi the grinding angle can be adjusted from 80° to 90° in 0.5° steps. **NEW:** Both tools have hard chrome plates for lasting smooth operation along the ski base and preventing damage to the coating. Wear and possible blockage of the friction rollers previously used is a thing of the past.

In the ProEdge Allround and ProEdge Champion, improvement has been made to the ergonomics of the handle cover. In addition, it is possible with both tools to adjust the angle between 90 and 83 in 0.5° steps. The profiled angle adjustment plates ensure excellent fixing of the files.

The 4 edge tools will be available to the trade from autumn 2006. Recommended retail prices: ErgoSemi € 23.95; ErgoProfi and ProEdge Allround € 45.95 each; and the World Cup professional tool ProEdge Champion for € 99.95.

**The new edge tools will be on show at the Winter-ISPO 2006 in hall
B3, 105.**

HOLMENKOL Sport-Technologies is the oldest ski wax manufacturer of the world and exclusively specialized on the development and the commercialization of highly innovative and environmentally friendly sports coatings based on the newest technologies since 2002.
