

PreWash Sport – the stain remover with a difference

Perfectly tailored to all sportswear and functional clothing

Sports and outdoor activities inevitably lead to stains on clothing – anything from grass stains to soil, sand or grease. In the past, combating these with aggressive stain removers ran the risk of ruining expensive sportswear and functional clothing, leaving it looking unsightly or cheap. Holmenkol’s brand new, specially formulated PreWash Sport stain remover lets you treat stains before washing and goes gently on ‘functional fabrics’.

Sportswear and other functional clothing, whether for climbing, running or just playing football, is normally made of synthetic fibres. Many of these ‘functional fabrics’ cannot survive a boil wash or even temperatures above 60 degrees Celsius. So to clean sensitive garments like these effectively, stains must be treated before washing. This is where PreWash Sport comes in: it’s specially tailored to the unique properties of sports clothing and functional fabrics.

Top notch cleaning – even at rock bottom temperatures

PreWash Sport has a gentle lemon scent and is easy to use – simply apply directly to stains using the soft brush built into the bottle top. PreWash Sport’s innovative formula attacks stains without attacking sensitive synthetic materials. After letting PreWash Sport work in for a while, simply wash the treated garment with the rest of the laundry as normal. For ultimate hygiene washing, try Holmenkol’s TextileWash – rated “very good” for dermatological friendliness by Dermatest, the independent research institute. Although PreWash Sport stain remover cleans most effectively in combination with TextileWash, it can also be used with conventional detergents. Always follow the garment’s washing instructions. PreWash Sport is available in stores now as a handy 250 ml bottle with built-in applicator brush. To find out more, visit www.holmenkol.de.

Product: Pre Wash Sport
Application: Textile protection

Description: Custom stain remover for sportswear and functional clothing

Benefits:

- Pretreat all kinds of textiles without damaging the fabric
- Removes common stains such as blood, grass, soil, mud, sand, marks left by clay tennis courts, grease, wax, tar, resin
- Pleasant lemon scent
- Easy to apply with built-in brush
- Cleans best in combination with TextileWash for hygienic washing
- Also suitable for hand washing
- Compatible with all detergents

How to apply:

- Before applying, test stain remover on invisible area of material to ensure it is safe to use
- Apply to stains and leave to work in for around 15 minutes, then wash in washing machine or by hand. Do not let the treated stain dry out
- Always follow the garment's washing instructions

Recommended retail price:

- €14.95 per 250ml bottle
